

Sing Like Angels

Sing like angels
Fling your voices
All the way to heaven's vault

Trust yourself but
Test your choices
Must love and justice fear assault?

Just speak the truth
Like Job or Ruth
Angels sing to make repair
You'll find the proof
In an open booth
With stars that twinkle everywhere

Sing like angels
Bring your passion
Touch the whole community

Search for justice
Learn compassion
Be as wise as you can be

Just seek the truth
Don't stand aloof
Angels need your harmony
Please concentrate
It's getting late
To sound the notes of urgency

An angel with a broken wing
Will not refuse a chance to sing
An angel with a broken heart
Will still sing out the perfect part

Sing like angels
Fling your voices
All the way to heaven's vault

Then do what's right
When you make choices
Are love and justice your default?

Sing like angels
Sing like angels
Sing like angels
Sing
